

Remarks/Arguments

This US national phase application claims priority from PCT/GB03/002774 filed on June 30, 2003 and British Application GB 0215028.2 filed on June 28, 2002.

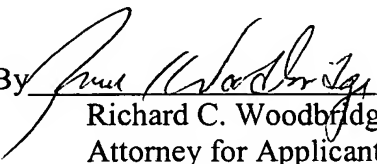

The amendment to the specification was made to include the priority information. The amendment to the claims was made to remove the multiple dependency and place the application in proper US format. No new matter has been added by making these amendments.

The U.S. Patent Office is hereby requested to examine the application based upon the application as amended.

If the patent examiner has any questions or comments, he/she is respectfully requested to contact applicant's attorney at the telephone number indicated below so that additional amendments may be added as required.

Respectfully submitted,

Richard Michael Taylor
